DETAILED ACTION

Response to Amendment

The Amendment, filed on August 3, 2006, has been entered and acknowledged by the Examiner.

Cancellation of claim 12 has been entered.

Claims 1-11 and 13-19 are pending in the instant application.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the claims,

This application is in condition for allowance except for the presence of claims 1-11 directed to inventions non-elected without traverse. Accordingly, **claims 1-11 have been cancelled.**

Allowable Subject Matter

Claims 13-19 are allowed over the prior art of record.

The following is an examiner's statement of reasons for allowance:

Regarding claim 13, the references of the Prior Art of record fails to teach or suggest the combination of the limitations as set forth in claim 13, and specifically comprising the limitation of cutting a first spacer base member to form a second spacer base member, immersing a non-

cut end portion of the second spacer base member into solution containing conductive substances to transfer the solution to the non-cut end portion of the second spacer base member, heating the conductive substances to form the conductive film, and abutting the non-cut end portion of the second spacer base member formed with the conductive film upon the first or second substrate.

Regarding claims 14 and 17-19, claims 14 and 17-19 are allowable for the reasons given in claim 13 because of their dependency status from claim 13.

Regarding claim 15, the references of the Prior Art of record fails to teach or suggest the combination of the limitations as set forth in claim 15, and specifically comprising the limitation of heating and drawing a first spacer base member, cutting the heated and drawn first spacer base member to form a second spacer base member, immersing a non-cut end portion of the second spacer base member formed by heating/drawing into solution containing conductive substances to transfer the solution to the non-cut end portion of the second spacer base member, heating the conductive substances to form the conductive film, and abutting the non-cut end portion of the second spacer base member formed with the conductive film upon the first or second substrate.

Regarding claim 16, claim 16 is allowable for the reasons given in claim 15 because of its dependency status from claim 15.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
